PT Manual de utilização

IMPORTANTE! GUARDE PARA REFERÊNCIA FUTURA

Leia cuidadosamente estas instruções antes de utilizar a mochila porta-bebês pela primeira vez!

ATENÇÃO

ATENÇÃO Observe constantemente o seu filho e certifique-se de que a sua boca e nariz se encontram livres.

ATENÇÃO Consulte o seu médico relativamente à utilização do produto no caso de bebés prematuros, bebés com peso reduzido à nascença e crianças que sofram de condições médicas especiais.

ATENÇÃO Certifique-se de que o queixo do seu filho não se encontra apoiado no seu peito, uma vez que poderá estar a obstruir a respiração, podendo provocar asfixia.

ATENÇÃO De modo a evitar o perigo de queda, posicione o seu bebé corretamente na mochila porta-bebês.

Tenha especial cuidado ao desempenhar tarefas como cozinhar ou trabalhos de limpeza, se se encontrar perto de fontes de calor ou bebidas quentes.

Utilize sempre a mochila porta-bebês apenas para uma criança.

A mochila porta-bebês foi concebida para que o seu filho esteja sempre a olhar na sua direção.

O seu equilíbrio pode ser comprometido pelos movimentos da criança ou mesmo pelos seus próprios movimentos.

Quem transporta o marsúpio deve tomar cuidado quando se inclina para a frente.

Não utilize o marsúpio enquanto pratica desporto, tais como corrida, ciclismo, natação e esqui.

Tenha em atenção que o perigo de queda aumenta quando o seu filho se move.

ARMAZENAMENTO E MANUTENÇÃO

Mantenha a sua mochila porta-bebês fora do alcance das crianças quando esta não estiver a ser usada.

Verifique regularmente a sua mochila porta-bebês quanto ao seu desgaste e marcas de uso, incluindo costuras e materiais rachados.

Confirme sempre se a mochila se encontra fechada antes de a lavar.

Para lavar utilize um detergente neutro.
